FIRM PROFILE

Bradlink is an Engineering Support Services Company. Recognized in 2004 as an Emerging Business by METRO Transit Authority in Houston, Texas, Bradlink offers a depth of expertise and specific knowledge to help clients meet their mechanical, electrical, plumbing and technology project requirements.

Our unique service solutions position us to serve the Public, University, Higher Education and Transit markets with the highest quality preliminary design and architectural layouts, contract documents, shop drawings, coordination drawings, site utility layouts, right-of-ways, Security, Control Systems and comprehensive Intelligent System Drawings. From initial design to renderings to detailed construction drawings to as-buils, our team of experts can help.

In addition, Bradlink provides key QA/QC services on project teams to make sure Client quality standards are met. We prepare and tailor as needed CADD QA/QC processes and written procedures and upon client approval, we provide awareness training to team personnel having CADD responsibilities. Prior to submittal of drawings, a QC audit occurs and if required, to meet client requirements, redlines, can be submitted for QA/QC verification purposes.

Bradlink LLC is certified as a MBE through an NMSDC affiliate, a HUB by the State of Texas, (M/WBE by the City of Houston and a Small Business Enterprise (SBE) by METRO Transit Authority - Houston.

ENGINEERING SERVICES

Bradlink's involvement in design and construction projects has covered commercial retail facilities, hotels, mixed development, infrastructure, medical facilities, educational institutions, access controls, fiber-optics, security surveillance and communications. Our unique approach to providing niche CADD and QA/QC services includes an understanding of Client's design and documentation and how these affect the final drawing product. We strive to understand and deliver the exact drawing needs from the start to make sure client project requirements are met.

Engineering, QA/QC and Construction Management Services
