Make life better.

The ELC Menu of Programs

You are invited to participate in the many premiere programs The ELC hosts to help entrepreneurs develop and mature. We encourage you to get in where you fit in any or all of the following programs:

Third Thursdays

One of our most successful programs, Third Thursdays is an exciting networking and educational program offered. Each month, a different speaker discusses relevant topics that are important to entrepreneurs and small business owners.

Speakers' Series

The ELC's Speakers' Series attracts the best and the brightest speakers from right here in Houston and across the country. Our speakers represent diverse industries and markets and possess on-the-ground experience in a variety of subjects including business planning and management, establishing business credit, sales and marketing, financial access and management, network marketing and more.

Construction Contractors' College

Our Construction Contractors' College (CCC) is a program designed to support small business owners in the construction industry who aspire to expand and grow their business. The program is for subcontractors who have been in business 1-3 years. You must apply to become part of the College.

CEO Forum

This advanced program is for entrepreneurs who have been in business at least 2 years and are committed to significantly grow their business over the next few years. The CEO Forum is a group of business owners who meet monthly to discuss all aspects of running their business in a confidential environment. Owners tap into the power and wisdom of many, and put in place a support group to assist all in attaining business goals. Through this group, the owner leverages upon the skills, knowledge, experiences, ideas and abilities of others as though they were his own advisory team. The ELC teams up with the SMART Squad (SCORE Mentoring and Resource Team) to deliver this program. You must apply to become a member of the CEO Forum.

Construction Incubator

There are hundreds of business incubators around the globe, but very few focus on providing information and support to entrepreneurs who want to succeed in the construction industry. This unique program does just that in partnership with several construction-related partners and specialists in the community. The Construction Contractor's College is a part of the Incubator.

Workshops and Seminars

The ELC is the perfect place to learn the tools of starting, growing and running your business. The ELC teams up with SCORE (Service Corps of Retired Executives) and various subject matter experts to provide valuable information to entrepreneurs at all stages of growth.

Make a Connection at The ELC

The Entrepreneurs' Learning Center is a place just for you. The ELC is located within The Kingdom Builders' Center, a beautiful state-of-the-art facility. It is an affordable community of people like you in an environment where you can make business and personal connections. Or if you simply need a change of scenery to get your creative juices flowing, the ELC is for you.

The ELC is inclusive of any entrepreneur. A la carte services are provided to enhance your business experience.

The ELC is inclusive of any entrepreneur.

The Entrepreneurs' Learning Center (ELC) is a business-supportive launch pad site and filling station for individuals at different points of the entrepreneurial journey that fuels your business to your desired destination.

Whether you are...

Just getting started or ready for take-off:

Leveled off or poised to climb:

College grad or retired professional:

Flying solo or employing staff...
